

CE's
thermal
screen

This is a 3D CAD model of a cable harness assembly. The model shows several grey cables with connectors, arranged in a structured manner. A thermal screen, represented by a red hatched area, is positioned between the cables and a component below. The component has yellow and green connectors. A blue structural part is visible at the bottom. A dimension line indicates a 20mm gap between the thermal screen and the component.

20mm
